California Society of the Sons of the Revolution – Eagle Chapter

The “Eagle” Chapter Chronology, for the Chapter Continues from the June meeting through July, which were successful and challenging!

CHRONICAL VOLUME 1 NUMBER-August - September 2018

Some Websites NSSAR–www.sar.org;

CASSAR – www.californiasar.org;

www.Americanrevolution.org

Eagle Chapter – www.sareagle.org; DAR –www.dar.or

A Chronicle for the Eagle SAR Chapter of the CA. State Society of the Sons of the American Revolution –

Our next meeting will be held at the Pala Mesa Resort in its Fireside room, at 2001 Old Highway 395 (just off I-15 Scenic Corridor in Escondido, California, 9 AM September 8th . Our presenter will be either a report on General Galvez OR

on Privateers in the Revolutionary War

OUR HISTORY, YOUR STORY, YOUR AWARDS AND YOUR MEMBERSHIPS IN THE EAGLE SAR CHAPTER, IS YOUR HISTORY –

Create Time line of your life and your ancestor ,and from this times line write a hort biography about yourself and ancestor and submit it to me for the coming newsleletters.

-*

A Presentation and Exhibit on Genealogy Basic 101 that included DNA and information on Sons of the American Revolution and Lineage – August 5th at Family History Discovery Day in Menifee, Calif. by Wayne Rogers

Wayne Rogers making a presentation on Genealogy -Basics 101.

The importance of Genealogy begins with the first man, Adam, the first generation in Genesis. in Chapter 5 with these words:

“This is the book of the generations of Adam. In the day that God created man, in the likeness of God made he him; (Note: genealogy per Greek deriving definition means the study of generations)

Man, and female created he them and bless them and called their name Adam in the day when they were created.

And Adam lived (number of years) ... and begat a son in his own likeness after his image and called his name Seth.

.....and he begat sons and daughter:

... and Seth (lived number of years) ... begat Enos

... and Enos (lived a number of years) ... begat Cainan:

....and Cainan(lived a number of years) ... begat Mahalaled

and so on.

From such information a primitive family tree can be created.

No other human civilization began with a such a genealogy, except later royalty. This is more than simply depicting some animals on wall or providing a historical account. This demonstrates the earliest importance of genealogy. So what began with the beginning of human civilization, should continue and multiply into other considerations (e.g. Sons of the American Revolution) .

Would you Like to be a member of the Sons of the American Revolution?

- Do you have a Relative who is or was a member of the Daughters of the American Revolution (DAR) or the Sons of the American Revolution (SAR)?
- Are you interested in performing in an American Revolution Color Guard, in Parades, Memorials, Constitution Day, etc. ?
- Are you interested in supporting the American Revolution
- Are you interested in honoring Revolutionary Patriots.

- Are you interested in supporting JROTC, Boy Scouts, High School Essays or Oratory
- Are you interested in Education of Early American History in schools, at fairs, or genealogical societies?
- Are you interested in supporting The Constitution, Veterans or Military?
- Are you interested in Genealogy?

If so , email roger-wayne1@msn.com or call Wayne Rogers at 951-795-8704

*To not to know what occurred
before you were born,
is to remain a child
For what is the worth
Of human life
Unless it is woven
Into the life of our ancestors
By records of history Cicero 106-43*

Wayne also described how to create time line of your life and your Ancestor, and then from these time lines, write a short biography about yourself and your Ancestor

Wayne also presented some basic genealogical DNA information

We humans have 23 chromosomes-

- 22 chromosomes are Autosomal DNA=- part by chance from each parent and ancestors' genes identifiable to about 7 generations

1 chromosome is sexual Y/X or X/X Chromosome- Male and Female Chromosome

They both are accurate to 25 to 50 generations.

Y chromosome is Male DNA

X or XX chromosome is mitochondrial or female DNA

XX chromosome given from mother to son and daughter, but not from father

Y and a X chromosome given by the father to a son and daughter, respectively

- - both are more stable DNA than that from autosomal DNA

Ancestry DNA provides significant hereditary information on autosomal DNA

Family Tree DNA provides significant hereditary information on Y and XX chromosomes

Wayne also provided basic information on Family Tree(s)

Types of Family Trees:

- Fan Chart
- Landscape
- Portrait
- Descendancy
-

An example of a (7 generation) Fan Chart is as follows:

in a summary what can you learn about your family or your family members through genealogical research:

- Stories
- Past Lives
- Past Life Experiences
- Forgotten ancestors
- Nationalities
- Ethnicities
- Race
- Religions
- Famous Relative
- Wars
- Migrations
- Occupations
- Anthropology
- Migrations
- Societies
- History

There is more to the universe and our consciousness, than just our lives or our human environments.

Wayne with his wife Nanci in front of a Sons of the American Revolution display, with a bust of George Washington at the Meniffee Family Discovery Day.

The display continued to the left to include other lineage societies.

CASSAR EAGLE CHAPTER

Again, some Thoughts, but for August=September

Saturday,

Presented by Wayne Rogers

The purposes of the Sons of the American Revolution

memories of Revolutionary Patriots

fellowship of descendants

reverence for the principles of government founded by our fore founders

historical research of the American revolution

preserving the records of the Revolutionary War Patriots

marking locations of the Revolution

marking tombstones of patriots

celebrating Anniversaries of the Revolution (e.g. 4th of the July)

fostering Patriotism Maintaining and extending the institutions of the American Freedom

carrying out the purposes of the Preamble of the Constitution

following the injunctions of Washington's farewell address to the American People

Verify – Obtain a knowledge of History, before it is too Late to Save!

by Wayne Jerome Rogers

Factual History is disappearing, as books, cultures, demographics, education, generations, memories, religions, traditions and purposes, times and education are changing.

To Save Statues of Men and Women of the American Revolution

To save American Revolution history and Statues of American Patriot History, **The Society of Cincinnati**, the oldest American Veterans and Patriot organization, has implemented the **American Revolution institute**, which is open to both men and women, to all Americans to save American Revolutionary History against those who would want to take down statues, names of roads, schools, towns, images on American bills, etc. of American Patriots from the Revolutionary War.

To become an associate, write or phone the following:

The American Revolution Institute, of the Society of the Cincinnati

2118 Massachusetts Avenue NW

Washington DC

202785-7040

The future is unknowable, but the past gives us hope-Winston Churchill

History cannot give us a full program for the future, but it can give us a fuller understanding of ourselves and our common humanity, so that we can better face the future.

The farther back in history you can go, the further forward you may see the future. Winston Churchill

The greatest historian should be a great moralist. Able to paint for the life of plain people the ordinary man and women of the times of which he writes-Theodore Roosevelt= Past masters.

The study of history would be meaningless if it did not have an ultimately religious significance and religious goal- Arnold 'Toynbee

Indeed, the general tendency of reading good history must be, to fix in the minds of youth deep impressions of the beauty and usefulness of virtue of all kinds.

CASSAR EAGLE CHAPTER

MINUTES OF A REGULAR MEETING HELD ON

Saturday, August 4, 2019

The regular meeting of the Eagle Chapter was held on August 4, 2018, at the Pala Mesa Resort in Fallbrook, California with 22 attendees, including three prospective members.

In the absence of the Chaplain, invocation was given by Jerry Sayre. The Pledge of Allegiance to the America Flag and the SAR Pledge were recited by attendees. No one wore a uniform to this meeting.

After breakfast, President Huegel welcomed everyone and introductions of members and guests were given.

Minutes of the previous meeting were approved.

Officers Reports:

--

Registrar Bruce Plummer reported seven people had expressed an interest through CASSAR, two followed up, Kalim Smith attended this meeting, one supplemental had gone in, it's taking a long time after the application is submitted.

Treasurer Robert Martin reported the bank account balance was \$3,406.96 at the end of June, the same at the end of July.

David Ott reported he had posted photos from the last meeting on the website, had added the newsletter and the last six months of events on calendar.

Publicity or Media Liaison Ed Morris reported he had been successful in getting a photo and caption on the Flag Certificate presentation to the Pala Mesa Resort printed in two newspapers.

Jerry Sayre reported the Color Guard marched in the Temecula July 4th parade, even though there were only two of them, he and Wayne Rogers, and they had two other people carrying the Chapter banner. He further stated he thought it would be a good idea for the Chapter to purchase a coat and a tri-corn hat to be worn by members of the Chapter in various activities. This suggestion was discussed by those present and will continue at the next meeting.

John reminded all those present that we will need volunteers to step forward as nominees for both secretary and president for the next year. It is crucial for this participation in order for the chapter to continue.

Several members participated or attended patriotic activities over the Fourth of July: Bill and Helen Frederich attended the Coronado parade, the Bishop's were in the Judges tent at the Temecula parade to help judge for a DAR award.

President John Huegel reported he felt the food at the breakfast was all good with the improvements that had been requested; everyone agreed.

In Remembrance of the American Soldiers' remains being returned to the U.S. by North Korea, he asked Jerry Sayre to give General Orders No. 11 of May 5, 1868 as a Memorial. Jerry gave General Orders No. 11, impressively rendered from memory.

The President asked for discussion regarding medals and awards.

He'd like to present the Silver Good Citizenship medal to Darrell Issa, who has given service to his country for several years: he was in the Army attaining the rank of Captain, has been responsible for a large amount of legislation under numerous subcommittees, in public service. Motion was made, seconded and passed to present the Silver Good Citizenship medal to Darrel Issa. The President will consult with the State Society regarding this recognition.

It was announced the Chapter would march in the Veterans Day Parade, and those marching with the color guard would wear red, white and blue. The flags representing all branches of the services were brought to the last meeting by and belong to Ernie and Mary-Anne McCullough. For this effort of devotion, patriotism and energy the SAR Flag Certificate was awarded to Ernie and Mary Anne.

David Ott in his presentation on the Boston Tea Party, held a trivia quiz with everyone participating.

The next meeting will be delayed one week, due to Labor Day holiday, to September 8.

The SAR Recessional was recited, and attendees sang "God Bless America". Jerry Sayre gave the benediction and the meeting was adjourned.

Respectfully submitted,

William Bishop

Attendees:

Bob and Carol Anderson

Bill and Fay Bishop

Prospective members attending:

Andy Jenkins

David Ott

The Earliest American Bald Eagle is from the Society of the Cincinnati by Pierre L'Enfant. He noted, in making his suggestion: "*The Bald Eagle, which is peculiar to this continent, and is distinguished from those of other climes by*

--

its white head and tail, appears to me to deserve attention." The Eagle has the longest life span of its species. It can live up to 7 years. But to reach this age it must make a hard decision, in its 40s. Its long and flexible talons can no longer grab prey which serves as food. Its long and sharp beak becomes bent. Its old aged and heavy feathers due to their thick features become stuck to the chest and make it difficult to fly. Thus, the Eagle has only two options die or go through a painful process of change which lasts over 150 days. The process requires the eagle to fly to a mountain top sit on its nest. There, the Eagle knocks its beak against a rock until it plucks it out. After plucking it out the beak will wait for a new beak to grow back and then it will pluck out its talons. When the talons grown back the eagle will start plucking out old aged feathers. And after five months the eagle takes the famous flight of re-birth and will fly for another 30 more years. Amazing.

LOCAL MEDAL OF HONOR WINNER

Unlike John McCain, Staff Sergeant Walter Ehlers, United States Army was not captured by the enemy, but returned home a hero and a medal of honor winner, but nevertheless Americans admire wise people, but honor Brave ones, like John McCain. Walter Ehlers graduated in the very same class 1964, with Wayne J. Rogers from Park University in 1964. Consequently, Wayne is particularly pleased to be able to present on Memorial Day, beside the plaque honoring Staff Sergeant Walter Ehlers, US Army. Wayne Rogers, past Eagle Chapter, President and Founder. May 28th, 2013. served, during the Vietnam War Era, Wayne J. Rogers did part of a physical on another Wayne J. Rogers, with identical name, who was killed and died in the WAR, and is on the Vietnam Memorial Wall. He is proud of his military service, because he was first in the Peace Corps prior to military service and he had to make a dramatic cultural and mind set from helping and teaching people to live, to recognizing that *death is also privilege of living*. Subsequently he performed additional government work after

active military service, by going into a research laboratory with a unique clearance level to *co-work* on Jet Propulsion Laboratories (space) contract and a related Department of Defense (space) Contract, on collecting and inputting all microbial sterilization published information for sterilization of space vehicles, military and other applications. Now 50 years later, Wayne is attempting to write a history of microbial sterilization for new researchers, medical, pharmaceutical food, and space engineers, and hospital, laboratory and other personnel to learn from.

Revised Eagle Chapter Calendar of Activities and Events and Happenings both Present and Past by VP Programs Wayne Rogers. The following list of events and activates is provided to assist Eagle Chapter compatriots and their family members in the planning of personal calendars for hereditary patriotic events. If you have an activity you would like to add to this list, please me at roger-wayne1@hotmail.com
